The Child CEO™ – VIC 2025

The Child CEO™ is the world's first leadership and entrepreneurship platform built specifically for children aged 7–17—fusing neuroscience, child psychology, and business coaching into one empowering journey.

Unlike traditional education, we begin where true leadership starts, with emotional intelligence, identity, and purpose. Our mission is to raise creators, not just achievers—resilient, values-driven young leaders equipped to shape the world they will inherit.

Globally inclusive and future-focused, The Child CEO™ partners with schools, NGOs, families, and forward-thinking corporations to close the widening leadership gap—ensuring the next generation is not only workforce-ready, but world-ready.
